Sir:

STATUS INQUIRY

The issue fee was paid on the referenced application on August 30, 1996 and formal drawings were filed. Since there is a good possibility that the referenced patent is either being infringed or will be infringed in the near future, the issue fee was accompanied by a request for expedited handling, a copy of which is attached.

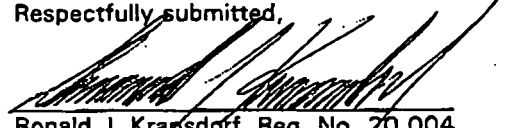

However, the application was apparently delayed in the Division and records indicate that it was not sent to the Drafting Branch until approximately October 17, 1996. However, it has now been over two weeks since the application was supposed to be sent to the Drafting Branch and Drafting indicates that they have still not received it.

We would therefore appreciate your assistance in locating the current whereabouts of the file on this application and in assuring that the application gets to the Drafting Branch as soon as possible. Your cooperation in this and in expediting

the issuance of this application are very much appreciated.

Respectfully submitted,
